DRILLING

Technical drilling
expertise for complex
ground conditions and
critical infrastructure

Capability OVERVIEW

 allnetworkservices.com

About ANS Drilling

- **Proven Expertise** – ANS Drilling is a Sydney-based drilling contractor specialising in Horizontal Directional Drilling (HDD) for underground infrastructure installation. Backed by extensive civil construction experience, we deliver safe, accurate, and efficient trenchless solutions tailored to each project.
- **Broad Industry Experience** – Our operators are highly skilled in working across a wide range of ground conditions, from soft soils through to solid rock formations. With a modern fleet of HDD rigs, we provide flexible solutions for tight-access urban sites through to large-scale infrastructure works.
- **Seamless Project Execution** – Every project is managed by a dedicated project manager, providing a single point of contact and ensuring clear communication, coordination, and compliance from start to finish.

Health, Safety & Environment

Workplace Health & Safety

- ✓ Safe Work Method Statements (SWMS)
- ✓ Risk assessments and job safety analysis
- ✓ Operator competency verification
- ✓ Ongoing safety training and compliance

Training & Experienced Team

- Operators with a minimum of 10 years' experience
- Strong background in civil construction
- Fully VOC certified
- Trained to work safely around underground services

Industry Compliance

We align with Australian WHS legislation, utility authority requirements, civil construction standards, and environmental protection guidelines.

Our Management System

ANS Drilling operates in accordance with recognised Australian standards and strict project compliance requirements, ensuring safe, consistent, and high-quality outcomes.

- Sydney Water
- ROC Comms
- Jemena
- Downer
- Mirait

At ANS Drilling, we focus on:

- Precision drilling and bore accuracy
- Safe, compliant project delivery
- Minimal environmental impact
- Efficient underground installation

We work closely with contractors, engineers, and project managers to deliver consistent, high-quality results across every stage of the project.

Booking Drilling Services

At ANS Drilling, we provide expert HDD solutions across Sydney and NSW, specialising in trenchless installation for utilities, telecommunications, electrical, water, sewer, and gas infrastructure.

For road, rail, or urban crossings, rock bores, or complex underground installations, contact our team for a free quote.

Environmental Management

- Environmental protection procedures
- Drilling fluid containment and control
- Waste management compliance
- Ground disturbance minimisation

Quality Assurance

- Scheduled equipment maintenance programs
- Pre-start inspections and checks
- Detailed project documentation and reporting
- Compliance with client and project specifications

Industry Accreditations

- Conduct Horizontal Directional Drilling Cert No. RIINHB323D
- Asbestos awareness 11084 NAT
- Silica awareness 10830 NAT
- HLTAID 011 First Aid Certificate Cert No. 91399

Applications

ANS Drilling provides HDD services for:

- Telecommunications infrastructure
- Electrical power installations
- Water and sewer pipelines
- Gas pipelines
- Road and rail crossings
- River and creek crossings
- Civil and infrastructure developments
- Urban underground utilities

Our trenchless drilling solutions minimise surface disruption, reduce reinstatement costs, and enable installation where traditional excavation is not feasible.

Our Equipment

Our fleet is designed to deliver performance, flexibility, and reliability across varying project requirements:

THRUST / PULLBACK	TORQUE	TYPICAL APPLICATIONS	KEY FEATURES / BENEFITS
24x40 HDD			
 24,000 lbs (10,886 kg)	4,000 ft-lb (5,423 Nm)	Telecom & electrical conduits, small-medium crossings, urban utilities	Compact, precise steering, efficient hydraulics; ideal for urban sites, fast mobilisation, cost-effective
36x50 Dirt HDD			
 36,000 lbs (16,329 kg)	5,000 ft-lb (6,779 Nm)	Utilities, water/sewer pipelines, medium crossings under roads/rail/water	Powerful thrust, advanced steering, high fluid capacity; longer bores, larger conduits, reliable in mixed soils
40x55DR Rock HDD			
 40,000 lbs (18,143 kg)	5,500 ft-lb (7,457 Nm)	Rock bores, road/rail crossings, water/gas pipelines	High torque, reinforced frame, advanced tooling, superior steering; effective in rock, accurate, faster drilling, longer/deeper bores

Other rigs available on request

Across all equipment, ANS Drilling ensures reduced surface impact, efficient mobilisation, and reliable performance in challenging environments.

Our Mission

At All Network Services, we are a proud family-owned business founded on integrity, honesty, and a dedication to exceptional service. Based in Sydney, we prioritise trust and reliability, treating every customer like family. Our mission is to build lasting relationships, uphold our core values in every interaction, and make a meaningful impact on our community for generations to come.

ANS DRILLING DELIVERS PRECISION, CONTROL, AND CONFIDENCE ON EVERY PROJECT - EVEN IN THE MOST CHALLENGING GROUND CONDITIONS.

Why Choose ANS Drilling?

- Extensive industry experience and trusted expertise
- Reliable, high-quality project outcomes
- Safe, compliant, and risk-managed operations
- Efficient mobilisation and delivery
- Capability across complex and restricted-access sites
- Full project accountability from start to finish
- Trusted by contractors and infrastructure partners
- Environmentally responsible drilling practices

Our Valued Clients

Ventia	Wideband/Optus	Jemena
Charlie Alliance	Sydney Water	Downer
Service Stream	ROC Comms	Mirait

Our Commitment

ANS Drilling combines technical expertise, experienced operators, and specialised HDD equipment to deliver safe, efficient, and reliable underground infrastructure solutions across Sydney and NSW. From complex rock bores and restricted-access urban sites through to major civil and utility infrastructure projects, we work closely with contractors, project managers, and asset owners to ensure precision drilling, minimal disruption, and compliant project delivery. Backed by strong civil construction experience, a commitment to safety, and trusted relationships with leading infrastructure partners, ANS Drilling delivers confidence, accountability, and high-quality outcomes on every project.

Our Certifications

ANS Drilling maintains up-to-date industry licenses and certifications.
